Dear Mr Lee:

Following my telephone call, I am sending this information via fax.

I am responding to Mr Le's communication of April 21, 2003.

I have re-written and signed the amendment as per Mr Le's instructions and suggestions. I will ring to ensure that I have in fact got this process right at last.

I again note my perplexity at the opening remarks in Mr Le's communication concerning attempts to contact me since April 10, 2002. Since that time, I in fact have had several telephone conversations with Mr Le, yourself and Ms Linda Marie Hodge Taylor, as well as fax and mail communication.

Could I also suggest that the time allocated for response is very tight when mail outside the US might well take most of that time to get there.

Thanks for your help.
